Milling plant for rapeseed oil

Hartkopf Unternehmensberatung
Inh.: Dipl.-Ök. Manfred Hartkopf

The mill will be closed end of July. Until mid of September the plant will be shut down, secured and cleaned.

After that a potential buyer has a 12-month time window for dismantling the installations. Partial sales are possible.

The plant processes annually approximately 500,000 tons of rapeseed to rapeseed oil for food industry. The remaining rapeseed meal is sold as an additive for animal feed.

The original price of the entire system is approximately € 50 million

Please let us know your price offer with dismantling, transport and reassembly at the expense of the purchaser.

If you are interested in single machines, let me know, I shall clarify what is possible.
